leader in power system solutions

ONE-STOP PRODUCTS EPC FOR POWER PROJECTS SMART O&M

Mission

More Reliable Power Supply · Safer Power Protection

Vision

Set the industry benchmark for power distribution equipment and jointly build a smart energy ecosystem

Core Values

Integrity · Diligence · Responsibility · Respect · Trust

Company Profile

Jubang Group Co., Ltd. is a provider of one-stop products + power EPC services + smart O&M power system solutions. Founded in 1993, the company has a registered capital of RMB 137.17 million. Its manufacturing base covers an area of 5.58 hectares, with 135,000 m² of standard workshops. The product portfolio includes intelligent complete switchgear, primary and secondary integrated equipment, distribution transformers, box-type substations, and power components.

In recent years, the company has continuously enhanced its capabilities in technology, branding, marketing, intelligent manufacturing, and services, and has become a qualified supplier to State Grid Corporation of China, China Southern Power Grid, PetroChina Company Limited, Inner Mongolia Power (Group) Co., Ltd., China Three Gorges Corporation, China Gezhouba Group, China Gold Group, Inner Mongolia Yitai Group, and other large enterprises.

The company has established industry-university-research cooperation with Zhejiang University, North China Electric Power University, Northeast Electric Power University, China Electric Power Research Institute, Shanghai Electrical Apparatus Research Institute, Hebei University of Technology, Hangzhou Dianzi University, and other institutions. It has obtained a total of 160 valid patents, including 35 invention patents, 45 software copyrights, and 11 provincial- and ministerial-level science and technology progress awards, and has participated in the formulation of 25 national and industry standards.

Jubang Group has been recognized as a National High-Tech Enterprise, a CNAS-accredited National Laboratory, a National Intellectual Property Advantage Enterprise, a “Little Giant” enterprise specializing in innovation by the Ministry of Industry and Information Technology, a National Postdoctoral Research Workstation, a National Green Factory, a Zhejiang Provincial Contract-Honoring and Creditworthy Enterprise, a Zhejiang Provincial Service-Oriented Manufacturing Demonstration Enterprise, a Zhejiang Provincial “Hidden Champion” Enterprise, a Zhejiang Provincial Industrial Internet Platform, a Zhejiang Provincial Green Low-Carbon Factory, a Zhejiang Provincial Specialized and New Enterprise, and a Zhejiang Provincial Third-Level Cloud Enterprise. The company holds Grade II qualification for power engineering construction general contracting, and holds, undertakes, and trials Grade III power business licenses.

Craftsmanship Creates Excellence

Dedicated Craftsmanship, Customer-Centric

Zhejiang Jubang Electric Co., Ltd. has always adhered to the principle of customer satisfaction as the top priority, implementing strict quality control standards. From raw material procurement to finished product delivery, the entire process is strictly supervised. With customer demand as the core, the company achieves defect-free design and manufacturing, using quality to support and enhance Jubang's value.

Precision Quality Control

Strictly complies with ISO9001 Quality Management System certification, ISO14001 Environmental Management System certification, and ISO45001 Occupational Health and Safety Management System. Raw material entry, processing, assembly, commissioning, inspection, and finished product delivery are all strictly regulated. Regular quality training is conducted for employees, and an information-based quality supervision system is established to ensure excellent product performance and high reliability.

Intelligent Manufacturing for Superior Quality

Continuously introducing advanced manufacturing processes, production equipment, and testing equipment, and consistently improving component quality through refined technology. By optimizing and refining production process design, enhancing flexible control of the manufacturing process, and effectively utilizing process flow cards, dedicated testing tools, and production equipment—combined with product traceability systems—the integrity of product manufacturing and usage is ensured.

Jubang Precision Testing

Zhejiang Jubang Electric Co., Ltd. always places great importance on product reliability and safety. Equipped with comprehensive performance testing and environmental testing equipment, the company conducts reliability tests under various extreme conditions to ensure stable product performance in all complex environments.

Intelligent Electrical System

Jubang Group specializes in the manufacturing of power distribution equipment up to 35 kV and below, with a complete industrial chain covering intelligent complete switchgear, primary–secondary integrated products, distribution transformers, box-type substations, and electrical components.

The cloud platform, a flagship product of the company’s digital transformation, has been recognized as a provincial-level industrial internet platform. It integrates six core management modules—real-time monitoring, operation & maintenance management, energy management, health management, asset management, and electronic archives—and is deeply integrated with equipment to deliver comprehensive intelligent electrical system solutions.

Industrial & Civil Construction Industry Solutions

With the rapid development of the social economy, in addition to ensuring reliable power supply, energy conservation and environmental protection are increasingly emphasized. Jubang leverages its advanced intelligent cloud platform, integrating self-developed air-insulated switchgear, prefabricated low-voltage distribution equipment, intelligent circuit breakers, dual-power automatic transfer switches, and other product series.

Through real-time monitoring of power equipment operating status, maintenance costs are effectively reduced, delivering digital and intelligent solutions for industrial and civil construction sectors. Typical applications include high-rise residential communities, training bases for aviation and navigation, Geely Innovation Headquarters Building, Pinghai Ocean Science and Technology Cultural Center, and Zhongshan Power Supply Projects, among others.

Energy Industry Solutions

In response to national “dual-carbon” policies, Jubang integrates intelligent process monitoring and control technologies with independently developed oil-immersed transformers, dry-type transformers, DC circuit breakers, AC circuit breakers, and dual-power automatic transfer switches.

While ensuring efficient energy utilization, these solutions improve power supply reliability, reduce maintenance costs, and enhance user safety, delivering intelligent solutions for the new energy sector.

Molded Case Circuit Breaker

-  Small size
-  High breaking capacity
-  Compact structure
-  Short arc distance

1 Product Features

- Features compact structure, small size, high breaking capacity, and short arcing distance
- Multiple wiring methods
Front connection, rear connection, draw-out type, plug-in type, etc.
- Complies with GB/T14048.2 and IEC60947-2 standards
- Complete accessories, fast installation, convenient operation, and wide applicability
- Current range: 16A–800A; number of poles: 3P, 4P
