Committed to becoming a
leader in power system solutions

ONE-STOP PRODUCTS
EPC FOR POWER PROJECTS
SMART O&M

Mission

More Reliable Power Supply · Safer Power Protection

Vision

Set the industry benchmark for power distribution equipment and jointly build a smart energy ecosystem

Core Values

Integrity · Diligence · Responsibility · Respect · Trust

Company Profile

Jubang Group Co., Ltd. is a provider of one-stop products + power EPC services + smart O&M power system solutions. Founded in 1993, the company has a registered capital of RMB 137.17 million. Its manufacturing base covers an area of 5.58 hectares, with 135,000 m² of standard workshops. The product portfolio includes intelligent complete switchgear, primary and secondary integrated equipment, distribution transformers, box-type substations, and power components.

In recent years, the company has continuously enhanced its capabilities in technology, branding, marketing, intelligent manufacturing, and services, and has become a qualified supplier to State Grid Corporation of China, China Southern Power Grid, PetroChina Company Limited, Inner Mongolia Power (Group) Co., Ltd., China Three Gorges Corporation, China Gezhouba Group, China Gold Group, Inner Mongolia Yitai Group, and other large enterprises.

The company has established industry–university–research cooperation with Zhejiang University, North China Electric Power University, Northeast Electric Power University, China Electric Power Research Institute, Shanghai Electrical Apparatus Research Institute, Hebei University of Technology, Hangzhou Dianzi University, and other institutions. It has obtained a total of 160 valid patents, including 35 invention patents, 45 software copyrights, and 11 provincial- and ministerial-level science and technology progress awards, and has participated in the formulation of 25 national and industry standards.

Jubang Group has been recognized as a National High-Tech Enterprise, a CNAS-accredited National Laboratory, a National Intellectual Property Advantage Enterprise, a “Little Giant” enterprise specializing in innovation by the Ministry of Industry and Information Technology, a National Postdoctoral Research Workstation, a National Green Factory, a Zhejiang Provincial Contract-Honoring and Creditworthy Enterprise, a Zhejiang Provincial Service-Oriented Manufacturing Demonstration Enterprise, a Zhejiang Provincial “Hidden Champion” Enterprise, a Zhejiang Provincial Industrial Internet Platform, a Zhejiang Provincial Green Low-Carbon Factory, a Zhejiang Provincial Specialized and New Enterprise, and a Zhejiang Provincial Third-Level Cloud Enterprise. The company holds Grade II qualification for power engineering construction general contracting, and holds, undertakes, and trials Grade III power business licenses.

Craftsmanship Creates Excellence Meticulous Quality · Customer First

Jubang Group Co., Ltd. always places customer satisfaction as the top priority. With a CNAS-accredited national laboratory, the company implements strict quality control standards, conducting full-process control from raw material procurement to finished product delivery. Guided by customer needs, Jubang integrates design, manufacturing, and testing, delivering reliable quality to support long-term customer value.

Precision Quality Control

Strict implementation of ISO 9001 Quality Management System, ISO 14001 Environmental Management System, and ISO 45001 Occupational Health and Safety Management System. Advanced quality management tools such as FMEA, PPAP, 8D, Control Plans, and Six Sigma are applied to continuously improve product quality.

Intelligent R&D Empowerment

Technological innovation is the core competitiveness of Jubang. Our R&D team is composed of highly educated and high-caliber professionals, dedicated to delivering competitive products and services and creating greater value for customers. With senior experts as technical advisors, the company has established a distinctive three-tier R&D talent structure. Through industry-university-research cooperation with domestic universities and research institutes, Jubang accelerates the transformation of R&D achievements and promotes high-quality development.

End-to-End Intelligent Manufacturing

With digital factories and intelligent manufacturing at the core, Jubang has established an efficient PLM collaborative integration platform, along with ERP and MES systems, enabling full life-cycle management of products. Seamless coordination is achieved across design, manufacturing, quality, and logistics, providing precise and efficient management at every stage of the product life cycle.

In addition, the company has introduced advanced production lines and processing equipment, including circuit breaker and RMU automated assembly and testing lines, CNC sheet metal flexible production lines, CNC turret punches, CNC laser cutting machines, CNC press brakes, CNC machining centers, and CNC spring machines. Jubang is also equipped with a CNAS-accredited national laboratory, featuring capabilities for mechanical performance, temperature rise, lightning impulse, partial discharge testing, as well as product testing and integrated management of test data.

Intelligent Electrical System

Jubang Group specializes in the manufacturing of power distribution equipment up to 35 kV and below, with a complete industrial chain covering intelligent complete switchgear, primary–secondary integrated products, distribution transformers, box-type substations, and electrical components.

The cloud platform, a flagship product of the company’s digital transformation, has been recognized as a provincial-level industrial internet platform. It integrates six core management modules—real-time monitoring, operation & maintenance management, energy management, health management, asset management, and electronic archives—and is deeply integrated with equipment to deliver comprehensive intelligent electrical system solutions.

Industrial & Civil Construction Industry Solutions

With the rapid development of the social economy, in addition to ensuring reliable power supply, energy conservation and environmental protection are increasingly emphasized. Jubang leverages its advanced intelligent cloud platform, integrating self-developed air-insulated switchgear, prefabricated low-voltage distribution equipment, intelligent circuit breakers, dual-power automatic transfer switches, and other product series.

Through real-time monitoring of power equipment operating status, maintenance costs are effectively reduced, delivering digital and intelligent solutions for industrial and civil construction sectors. Typical applications include high-rise residential communities, training bases for aviation and navigation, Geely Innovation Headquarters Building, Pinghai Ocean Science and Technology Cultural Center, and Zhongshan Power Supply Projects, among others.

Energy Industry Solutions

In response to national “dual-carbon” policies, Jubang integrates intelligent process monitoring and control technologies with independently developed oil-immersed transformers, dry-type transformers, DC circuit breakers, AC circuit breakers, and dual-power automatic transfer switches.

While ensuring efficient energy utilization, these solutions improve power supply reliability, reduce maintenance costs, and enhance user safety, delivering intelligent solutions for the new energy sector.

KYN550

Indoor Metal-Clad Withdrawable AC Switchgear

 Compact Structure
Small Footprint

 Easy
Installation

 Safe and
Reliable

 Superior
Performance

1 Overview

1.1 Scope of Application

KYN550 indoor metal-clad withdrawable AC switchgear (hereinafter referred to as KYN550 switchgear) is suitable for 12 kV, three-phase AC 50 Hz single-bus and single-bus sectionalized power systems. It is used for receiving and distributing electric energy and for controlling, protecting, and monitoring circuits. It is equipped with a vacuum circuit breaker featuring anti-misoperation interlocking to prevent incorrect opening and closing operations, prevent closing with the earthing switch in the closed position, prevent energizing the cable compartment, and ensure the “five interlocks” function when the breaker is live. The panel is fitted with a medium-mounted solid insulated vacuum circuit breaker.

With a cabinet width of only 550 mm, the KYN550-12 compact design saves significant power distribution space. It is mainly used in commercial and industrial buildings, substations, data centers, and other applications requiring compact transformer and distribution rooms.

1.2 Installation Conditions

Ambient air temperature: upper limit +40°C, lower limit -25°C

Altitude: maximum installation altitude 1000 m

Relative humidity: daily average ≤95%, monthly average ≤90%

Seismic intensity: not exceeding 8 degree

The surrounding air shall be free from corrosive or flammable gases, water vapor, or other significant pollution

No severe contamination or frequent severe vibration; under harsh conditions, the design shall meet Class I severity requirements

1.3 Product Features and Structure

The switchgear consists of the cabinet body and a withdrawable unit (circuit breaker trolley). The cabinet is divided into four independent compartments. The enclosure protection degree is IP4X, and when the compartment doors and circuit breaker chamber door are open, the protection degree is IP2X.

It supports overhead incoming/outgoing lines, cable incoming/outgoing lines, and other functional schemes. Through arrangement and combination, it can form various types of power distribution systems. The switchgear can be installed, commissioned, and maintained from the front, allowing back-to-back or wall-mounted installation, thereby improving safety and flexibility while reducing floor space requirements.

2 Product Model and Designation

3 Main Technical Specifications

KYN550 Indoor Metal-Clad Withdrawable AC Switchgear – Main Technical Specifications

Model	Unit	Value
Rated Voltage	kV	3.6、7.2、12
Rated Frequency	Hz	50
Rated Circuit Breaker Current	A	630、1250
Rated Switchgear Current	A	630、1250
Rated Short-Time Withstand Current (4s)	kA	16、20、25、31.5
Rated Peak Withstand Current	kA	40、50、63、80
Rated Short-Circuit Breaking Current	kA	16、20、25、31.5
Rated Short-Circuit Making Current (Peak)	kA	40、50、63、80
Rated Insulation Level	1 min Power-Frequency Withstand Voltage	kV 25、30、42
	Lightning Impulse Withstand Voltage	kV 40、60、75
Degree of Protection	Enclosure Protection Degree: IPX ₄
